# **Processes and Methods for Creating Questions and Protocols for an International Study of Ideas about Development and Family Life**

**By**

**Arland Thornton – University of Michigan**

**Alexandra Achen – University of Michigan**

**Jennifer Barber – University of Michigan**

**Georgina Binstock – Centro de Estudios de  
Población, Buenos Aires**

**Wade Garrison – University of Michigan**

**Dirgha Ghimire – University of Michigan**

**Wang Guangzhou – Chinese Academy of  
Social Sciences**

**Ronald Inglehart -- University of Michigan**

**Rukmalie Jayakody – Penn State University**

**Yang Jiang – University of Michigan**

**Julie de Jong – University of Michigan**

**Katherine King – University of Michigan**  
**Ron Lesthaeghe – University of Michigan**  
**Sohair Mehanna -- American Univ. Cairo**  
**Colter Mitchell – University of Michigan**  
**Mansoor Moaddel – Eastern Michigan Univ.**  
**Mary Beth Ofstedal – University of Michigan**  
**Norbert Schwarz -- University of Michigan**  
**Yu Xie -- University of Michigan**  
**Li-shou Yang -- University of Michigan**  
**Linda Young-DeMarco – Univ. of Michigan**  
**Kathryn Yount – Emory University**

# **Focus of the Paper**

- 1. Our creation and testing of measures of values and beliefs concerning societal development.**
- 2. Completed data collection in 11 countries.**
- 3. Describe process of Question Design.**
- 4. Evaluation of Questions.**

# Reading History Sideways: The Fallacy and Enduring Impact of the Developmental Paradigm on Family Life

*The University of Chicago Press, 2005.*

# The Developmental Model

- 1. The developmental paradigm is a model of change.**

# **The Developmental Model**

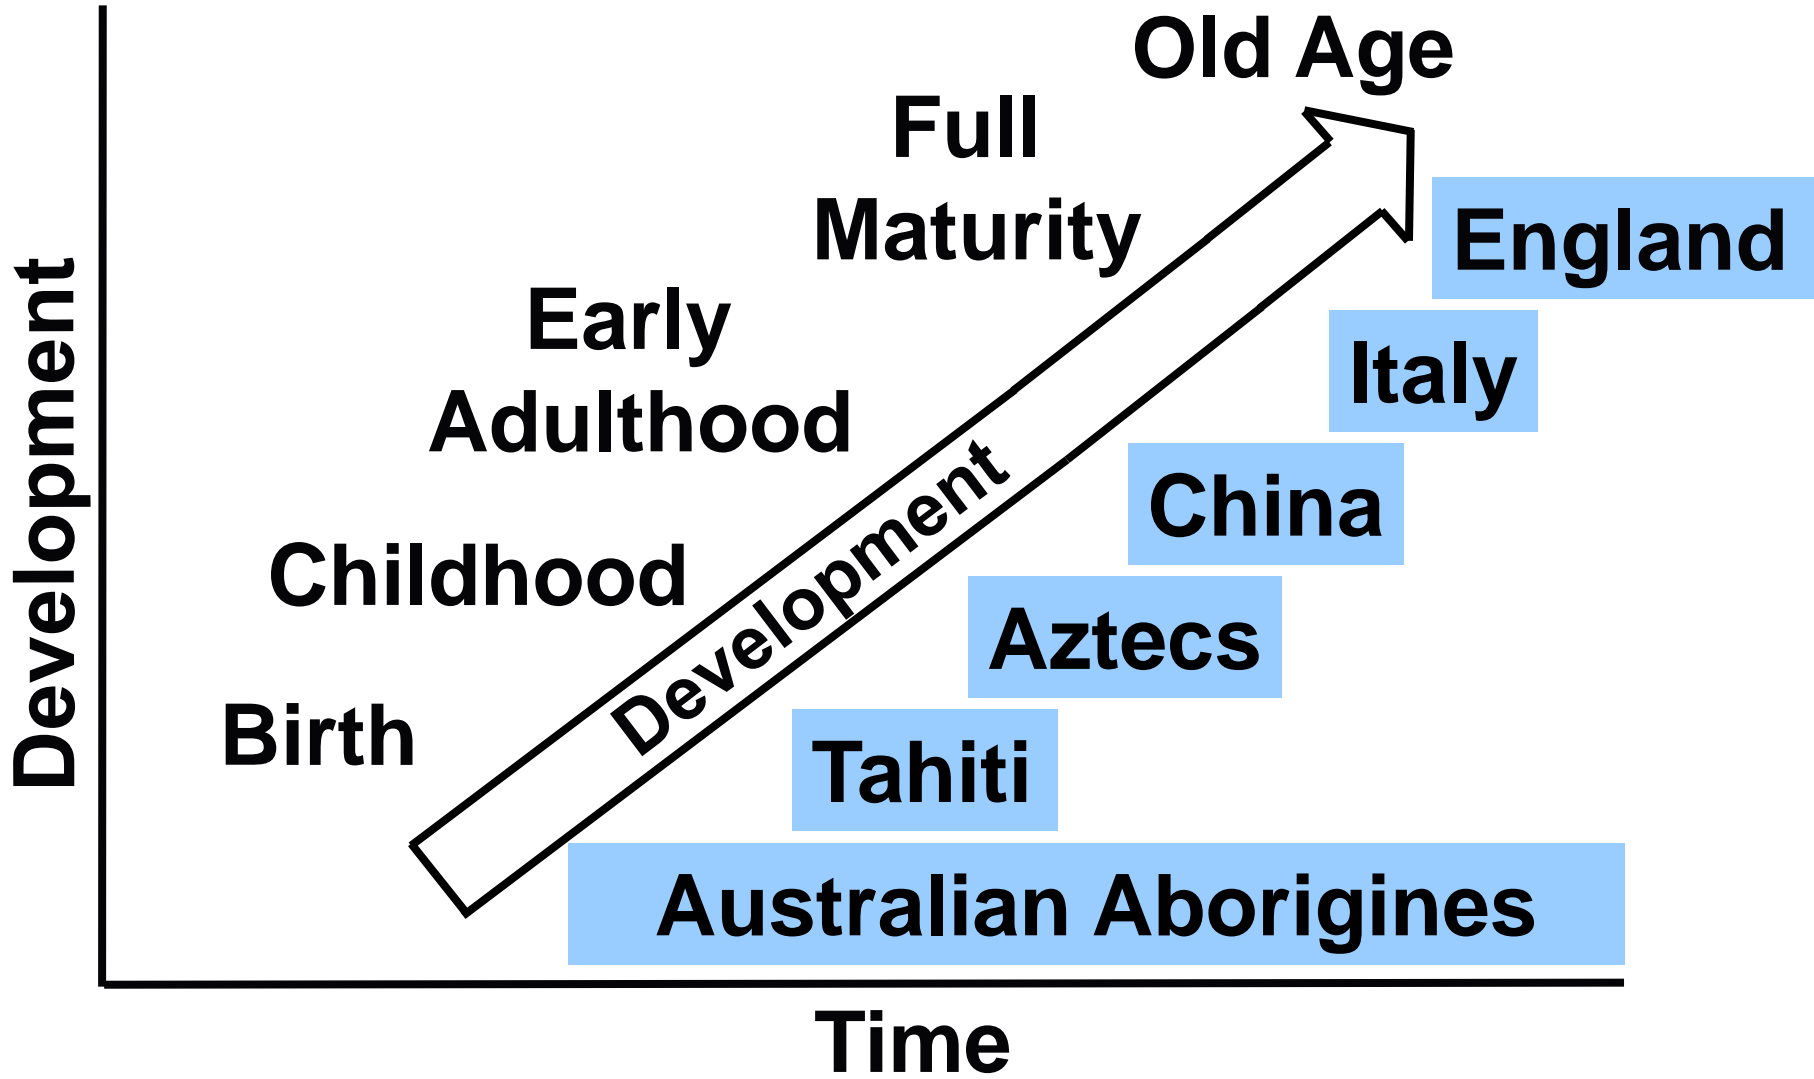

- 1. The developmental paradigm is a model of change.**
- 2. Change is pictured as natural, uniform, necessary, and directional.**

# Societal Development

# Societal Development

	<b>U.N. HDI</b>
<b>U.S.</b>	<b>9.4</b>
<b>England</b>	<b>9.3</b>
<b>Japan</b>	<b>9.3</b>
<b>Argentina</b>	<b>8.5</b>
<b>Brazil</b>	<b>7.8</b>
<b>China</b>	<b>7.2</b>
<b>Bolivia</b>	<b>6.7</b>
<b>India</b>	<b>5.9</b>
<b>Nepal</b>	<b>5.0</b>
<b>Nigeria</b>	<b>4.6</b>
<b>Somalia</b>	<b>2.9</b>

# **Do Ordinary People Have the same framework?**

- 1. Do they have a concept of development?**
- 2. Is this concept like the UN's?**
- 3. Do they know about different countries?**
- 4. Can we measure knowledge of a developmental hierarchy?**

# **Modern or Developed Society**

- Industrialized**
- Urbanized**
- High Levels of Formal Education and Knowledge**
- High Levels of Consumption**
- Democratic Government**
- Religious Pluralism and Secularism**

# The Great Family Transition

## Traditional

Family Organized  
Family Solidarity  
Extended Households  
Young Marriage  
Parental Authority  
Arranged Marriage  
Gender Hierarchy

## Modern

Less Family Organized  
Individualism  
Nuclear Households  
Older Marriage  
Youthful Autonomy  
Marital Courtship  
Gender Egalitarianism

Development

# **Do Ordinary People Have the same Ideas about Modern and Traditional?**

- 1. In the family arena?**
- 2. In the societal arena?**

# Explaining the Family Transition

# Explaining the Family Transition

# **Do Ordinary People Have the same theories relating family and society?**

- 1. Do they believe modern societies produce modern families?**
- 2. Do they believe modern families produce modern societies?**

# Elements of Developmental Idealism

# Elements of Developmental Idealism

## 1. Modern society is good and includes:

- Industrialized
- Urbanized
- Highly Educated
- Highly Knowledgeable

# Elements of Developmental Idealism

**1. Modern society is good.**

**2. Modern family is good and includes:**

- Individualism
- Nuclear Households
- Old Age at Marriage
- Youthful Autonomy
- Courtship in Marriage
- Gender Egalitarianism
- Family Planning
- Low Fertility

# Elements of Developmental Idealism

- 1. Modern society is good.**
- 2. Modern family is good.**
- 3. Modern family is a cause and effect of a modern society.**

# Points About Developmental Idealism

1. Point is Not whether the elements are true or false, good or bad.
2. Point is whether they are accepted, rejected, or modified.
3. Point is whether they motivate new behavior.
4. Our issue is whether we can measure people's beliefs and values concerning these things.

# **Do People Believe.....**

- 1. That the elements of a modern society are good?.**
- 2 That the elements of a modern family are good?**
- 3. That a modern family is a cause and effect of a modern society?**

# **Our Initial Approach**

- 1. Was very modest.**
- 2. Had very little money**
- 3. Team was very small**
- 4. Decided to start in one country--Nepal**

# Initial Data Collection in Nepal

- Informal Interviews
- In-Depth Interviews
- Focus Groups
- Pilot Survey

# Further Preliminary Work in Argentina and Egypt

- Focus Groups
- Questionnaires

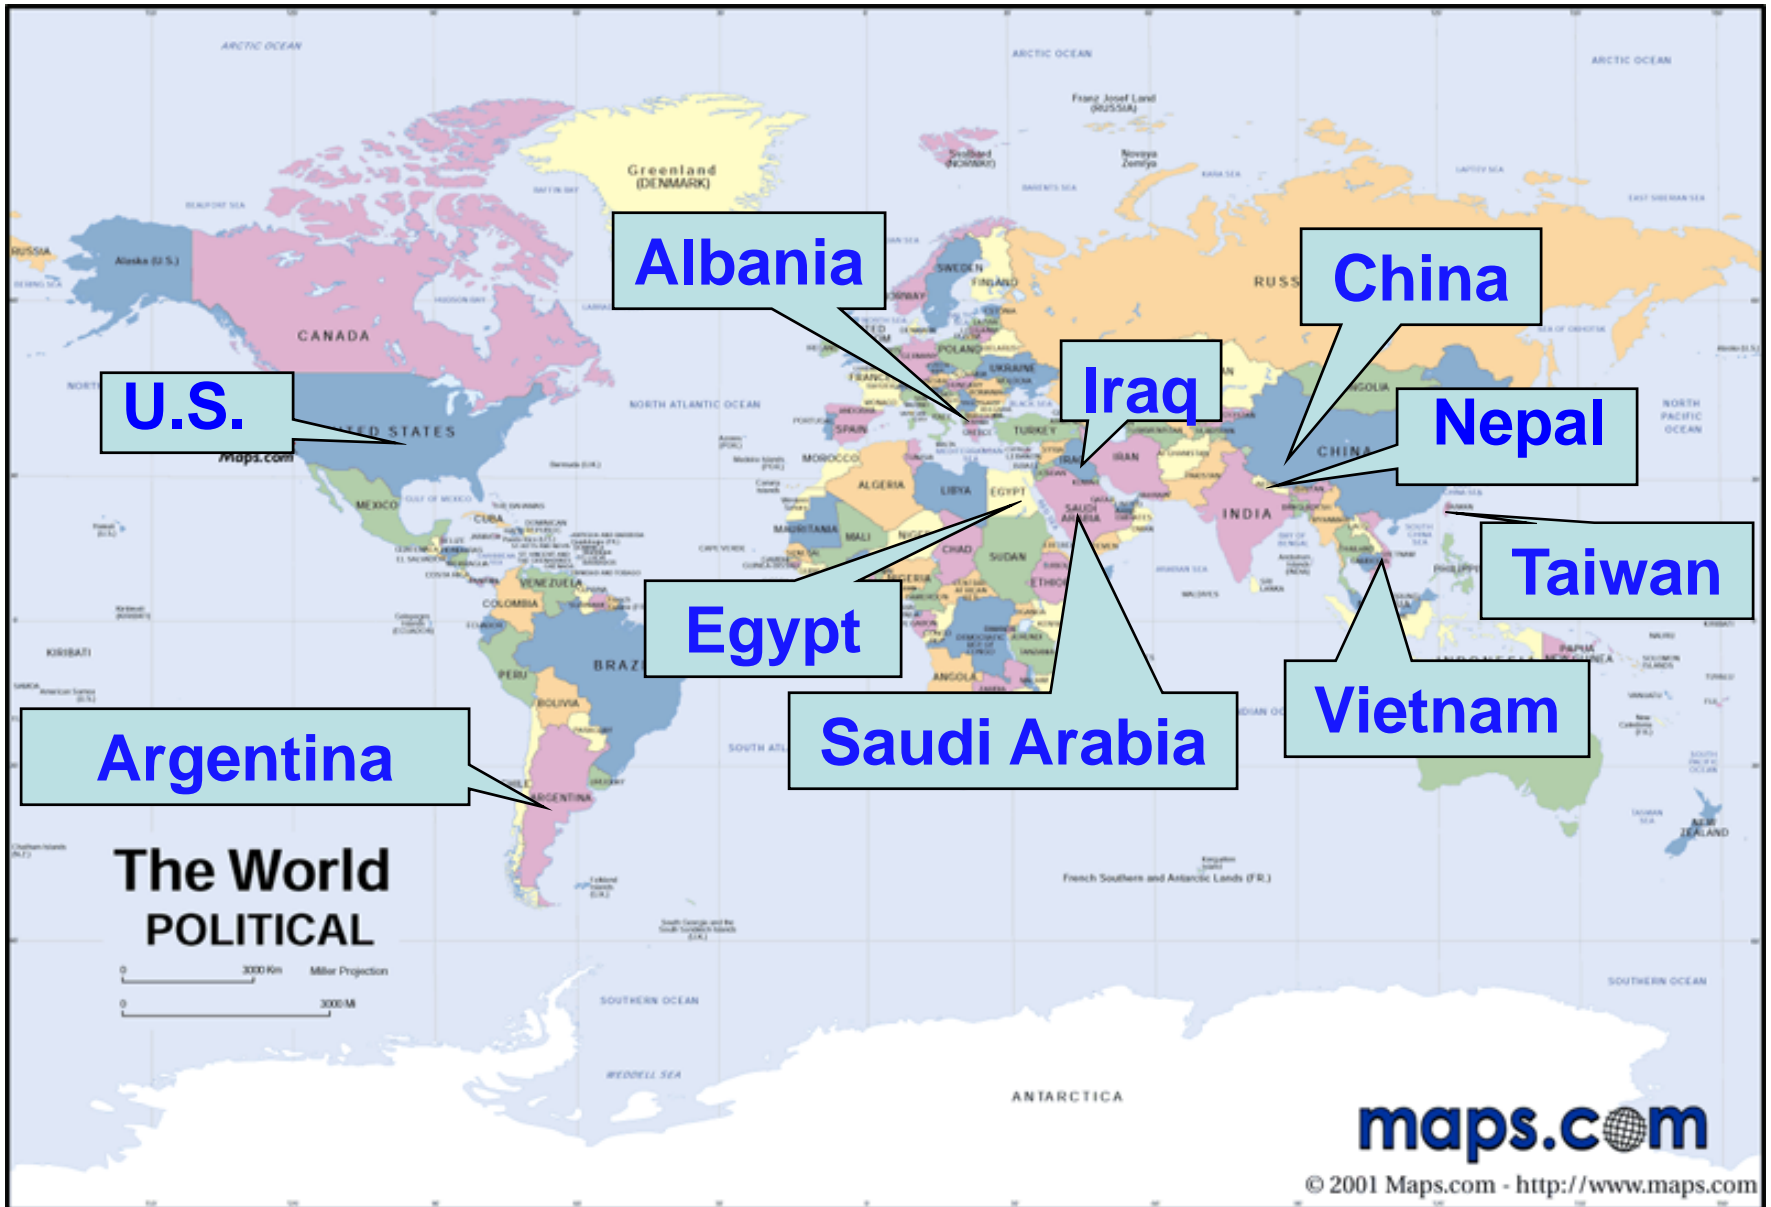

# Further Preliminary Work in the United States

- Cognitive Interviewing
- Pilot Survey

# Research Team Expanded to Include

1. Expertise in many diverse countries: Albania, Argentina, Belgium, China, Egypt, Iran, Nepal, Taiwan, United States, and Vietnam.
2. Expertise in many different disciplines: anthropology, demography, political science, psychology, and sociology.
3. Expertise in multiple methods: ethnography, experiments, and surveys.

# Research Sites

# Current Simultaneous Design

- Design Comparable Questions for Use in Many Countries
- Comparable Surveys Conducted in Five Countries
  - Argentina
  - China
  - Egypt
  - Iran
  - United States

# **Some Results**

- 1. People understand and use the concept of development.**
- 2. People understand the international developmental hierarchy.**
- 3. People Understand the developmental hierarchy similarly to the United Nations**
- 4. People know what family traits go with development.**
- 5. People have theories about the causal connections between family and societal change.**

	<b>U.N. HDI</b>
<b>U.S.</b>	<b>9.4</b>
<b>England</b>	<b>9.3</b>
<b>Japan</b>	<b>9.3</b>

Development

# Nepali Perceptions of Where Certain Family Attributes Are More Common

<b>Attribute</b>	<b>Traditional</b>	<b>Developed</b>
<b>Older age at marriage</b>	<b>19%</b>	<b>81%</b>
<b>Respect for women</b>	<b>19%</b>	<b>80%</b>
<b>Contraceptive use</b>	<b>8%</b>	<b>92%</b>
<b>Nuclear households</b>	<b>33%</b>	<b>65%</b>
<b>Arranged marriage</b>	<b>68%</b>	<b>31%</b>

# American Perceptions of Where Certain Attributes Are More Common

	% Saying More Common in:	
	Not Developed	Developed
Married Children Living with Parents	69.0	23.8
Females Marrying Before Age 18	88.9	11.7
Family Unity	59.5	28.6
Control over Adult Children	65.1	29.4
Men with More Than One Wife	87.3	6.4
Arranged Marriages	92.1	5.6
Couple with Many Children	81.0	14.3
Infant Mortality	92.9	4.0
People Working on Farms	76.2	17.5
Personal Freedom	7.9	87.3
Equality between Men & Women	3.2	93.6
Women Never Marry	12.7	82.5
Marriages Breaking Up	0.8	94.4
Respect for Women	7.9	87.3
Babies Born to Unmarried Mothers	23.8	69.8
Non-marital Cohabitation	5.6	86.5
Romantic Love between Husband & Wife	15.1	68.2
People in Cities	8.7	83.3
High Standard of Living	1.6	96.0
Many People Receiving Education in Schools	2.4	95.2

# Explaining the Family Transition

## **Question Wording:**

**“Now, let us talk about whether the following things would be more common or less common if Nepal became more developed. People marrying at older ages? If Nepal became more developed, would people marrying at older ages be more common or less common?”**

# Evaluation of the Effects of Development on Family Life in Nepal

	Characteristic Would Become:	
	More Common	Less Common
<b>Older age at marriage</b>	<b>73%</b>	<b>27%</b>
<b>Respect for women</b>	<b>89%</b>	<b>10%</b>
<b>Choosing own spouse</b>	<b>80%</b>	<b>19%</b>
<b>Contraceptive use</b>	<b>81%</b>	<b>19%</b>

# What happens to family attributes as countries undergo economic development

(Perceptions of Young Egyptians)

<b>Attribute</b>	<b>Happens</b>	<b>Does not happen</b>
<b>Women's status declines</b>	<b>12.6</b>	<b>87.4</b>
<b>People choose own spouse</b>	<b>56.2</b>	<b>43.8</b>
<b>Marriage at older ages</b>	<b>72.5</b>	<b>27.5</b>
<b>Couples have fewer children</b>	<b>83.7</b>	<b>16.3</b>

## **Question Wording:**

**“Some people talk about making Nepal richer. For each of the following things, please tell me whether you think it would help make Nepal richer or help make Nepal poorer. If more people married at an older age? Would that help make Nepal richer or help make Nepal poorer?”**

# Nepali Respondent's Evaluation of Whether Changes in Family Life in Nepal Would Make Nepal Richer or Poorer

	Would Make Nepal:	
	Richer	Poorer
<b>Older age at marriage</b>	<b>90%</b>	<b>9%</b>
<b>Respect for women</b>	<b>89%</b>	<b>11%</b>
<b>Choosing own spouse</b>	<b>72%</b>	<b>21%</b>
<b>Contraceptive use</b>	<b>91%</b>	<b>9%</b>

# Would certain family changes promote or slow down modernization in Vietnam?

(Perceptions of Vietnamese)\*

<b>Change</b>	<b>Promote Modernization</b>	<b>Slow down Modernization</b>
<b>More women leaders</b>	<b>68.0</b>	<b>10.0</b>
<b>More arranged marriages</b>	<b>26.9</b>	<b>52.4</b>
<b>Marry at older ages</b>	<b>69.6</b>	<b>10.9</b>
<b>Have more children</b>	<b>2.3</b>	<b>93.7</b>

\*Third category “stay the same” not shown

# Additional Plans and Hopes for More:

- In-Depth Interviews
- Focus Groups
- Cognitive Interviewing
- Experiments in Surveys
- Web Survey Experiments
- Cross-Sectional Surveys
- Panel Studies
- Content Analysis

# I Welcome

- 1. Criticisms, suggestions, and questions.**
- 2. Suggestions for new lines of research/investigation.**
- 3. Interest in collaboration.**
- 4. Other material at:  
<http://developmentalidealism.org/>**

**Thank You**

**Arland**

# **Developmental Paradigm**

- 1. I am NOT presenting the developmental paradigm to advocate it as a research or policy tool.**
- 2. Instead, I reject it as a model for research and practice.**
- 3. I present it here ONLY to show how it became widespread and influential.**

# **Developmental Paradigm**

- 1. I am NOT presenting the developmental paradigm to advocate it as a research or policy tool.**
- 2. Instead, I reject it as a model for research and practice.**
- 3. I present it here ONLY to show how it became widespread and influential.**

# **Phenomenon We Want to Explain**

- 1. Declines or delays in fertility.**
- 2. Declines in abortion; increases in contraception.**
- 3. Declines in marriage rates and increases in age at marriage.**
- 4. Increases in unmarried cohabitation.**
- 5. Increases in nonmarital childbearing.**
- 6. Similar changes in beliefs, values, and attitudes.**

# **Several Existing Explanations**

- 1. Promarriage and pronatalist policies were abandoned or weakened.**
- 2. Drop in standard of living.**
- 3. New uncertainty.**
- 4. Old institutions shattered and old norms weakened.**
- 5. New attitudes and values.**
- 6. Increased importance of education.**

# **Developmental Idealism and Worldwide Family and Demographic Change**

**Arland Thornton**

# Talk Has Three Parts

**1:**

**The Developmental Paradigm and  
Myths about a Great Family  
Transition in Northwest Europe**

# Talk Has Three Parts

**1: The Developmental Paradigm and Myths about a Great Family Transition in Northwest Europe**

**2: The ideas of developmental idealism, their spread around the world, and their influence on worldwide family change**

# Talk Has Three Parts

- 1: The Developmental Paradigm and Myths about a Great Family Transition in Northwest Europe**
- 2: The ideas of developmental idealism, their spread around the world, and their influence on worldwide family change**
- 3: New evidence about people today believing these ideas and acting on them**

# Part One

**1:**

**The Developmental Paradigm and  
Myths about a Great Family  
Transition in Northwest Europe**

# The Conceptual Framework

- 1. The developmental paradigm is a model of change.**

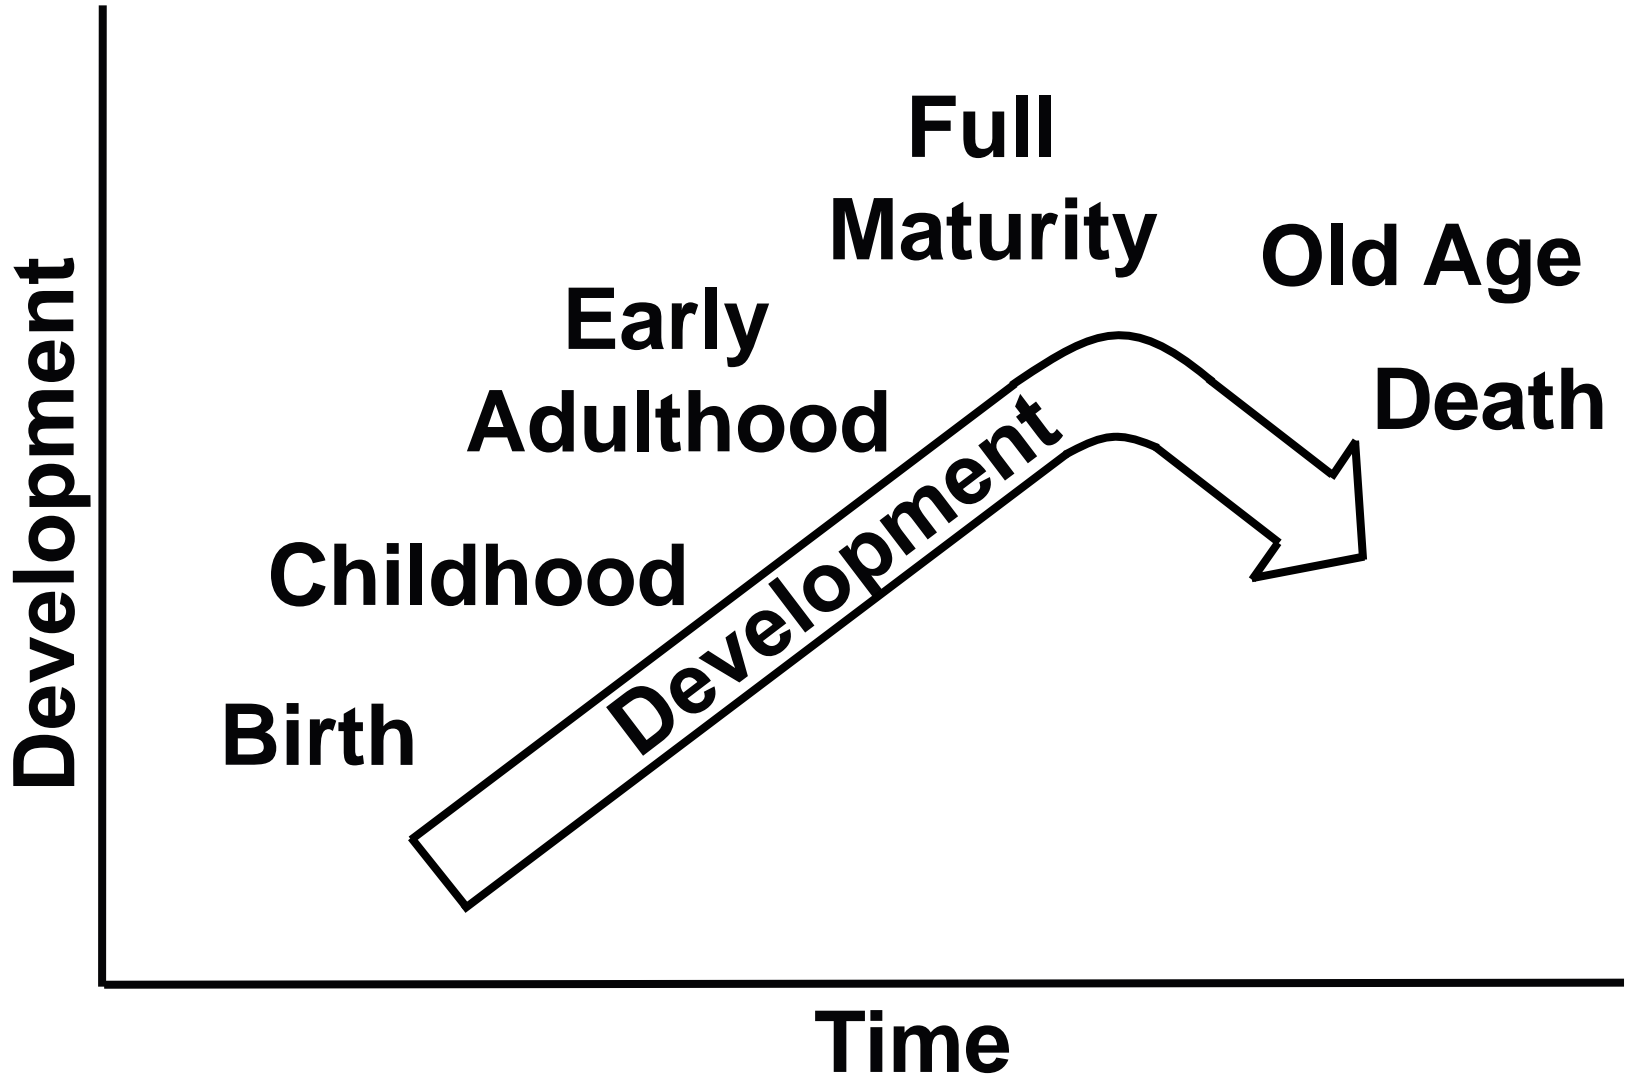

# The Conceptual Framework

1. The developmental paradigm is a model of change.
2. Change is pictured as natural, uniform, necessary, and directional.

# Individual Development

# Societal Development

# Societal Development

# Reading History Sideways

The scholars of the enlightenment used the developmental paradigm to create a reading history sideways methodology for describing change.

# Reading History Sideways

The scholars of the enlightenment used the developmental paradigm to create a reading history sideways methodology for describing change.

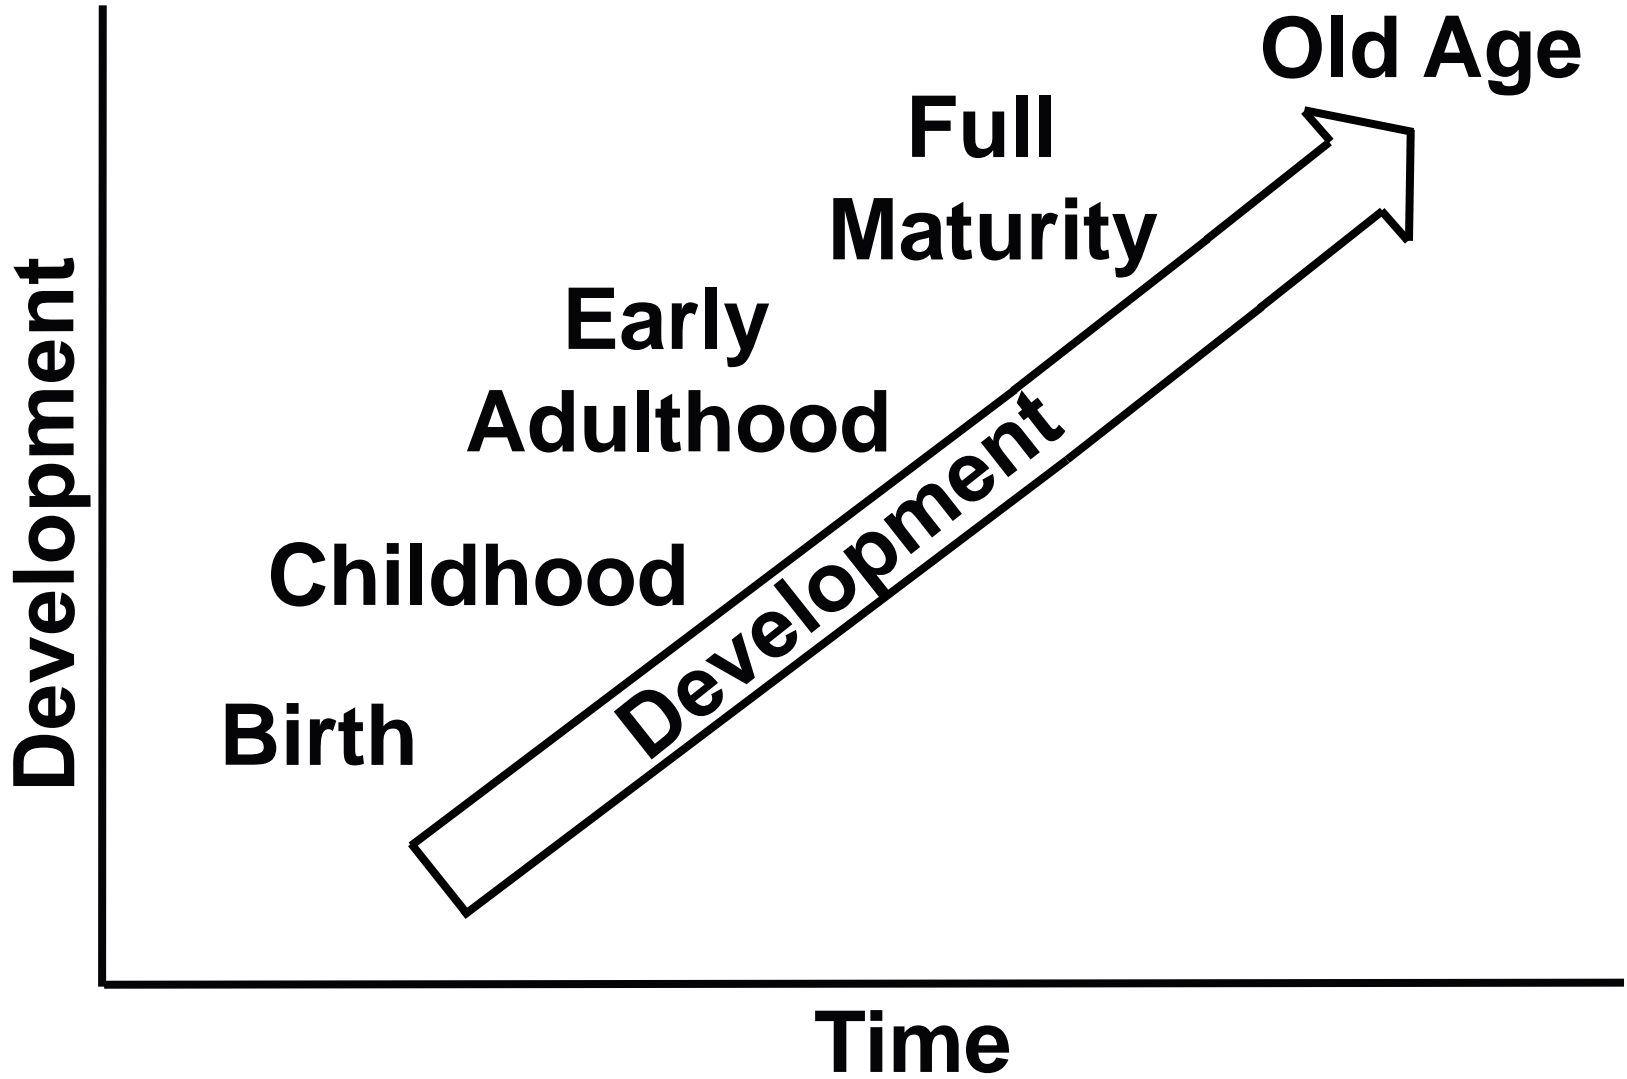

a. They had little historical data and large quantities of cross-sectional data.

# Reading History Sideways

The scholars of the enlightenment used the developmental paradigm to create a reading history sideways methodology for describing change.

- a. They had little historical data and large quantities of cross-sectional data.
- b. They substituted variations across space for variations across time.

# Societal Development

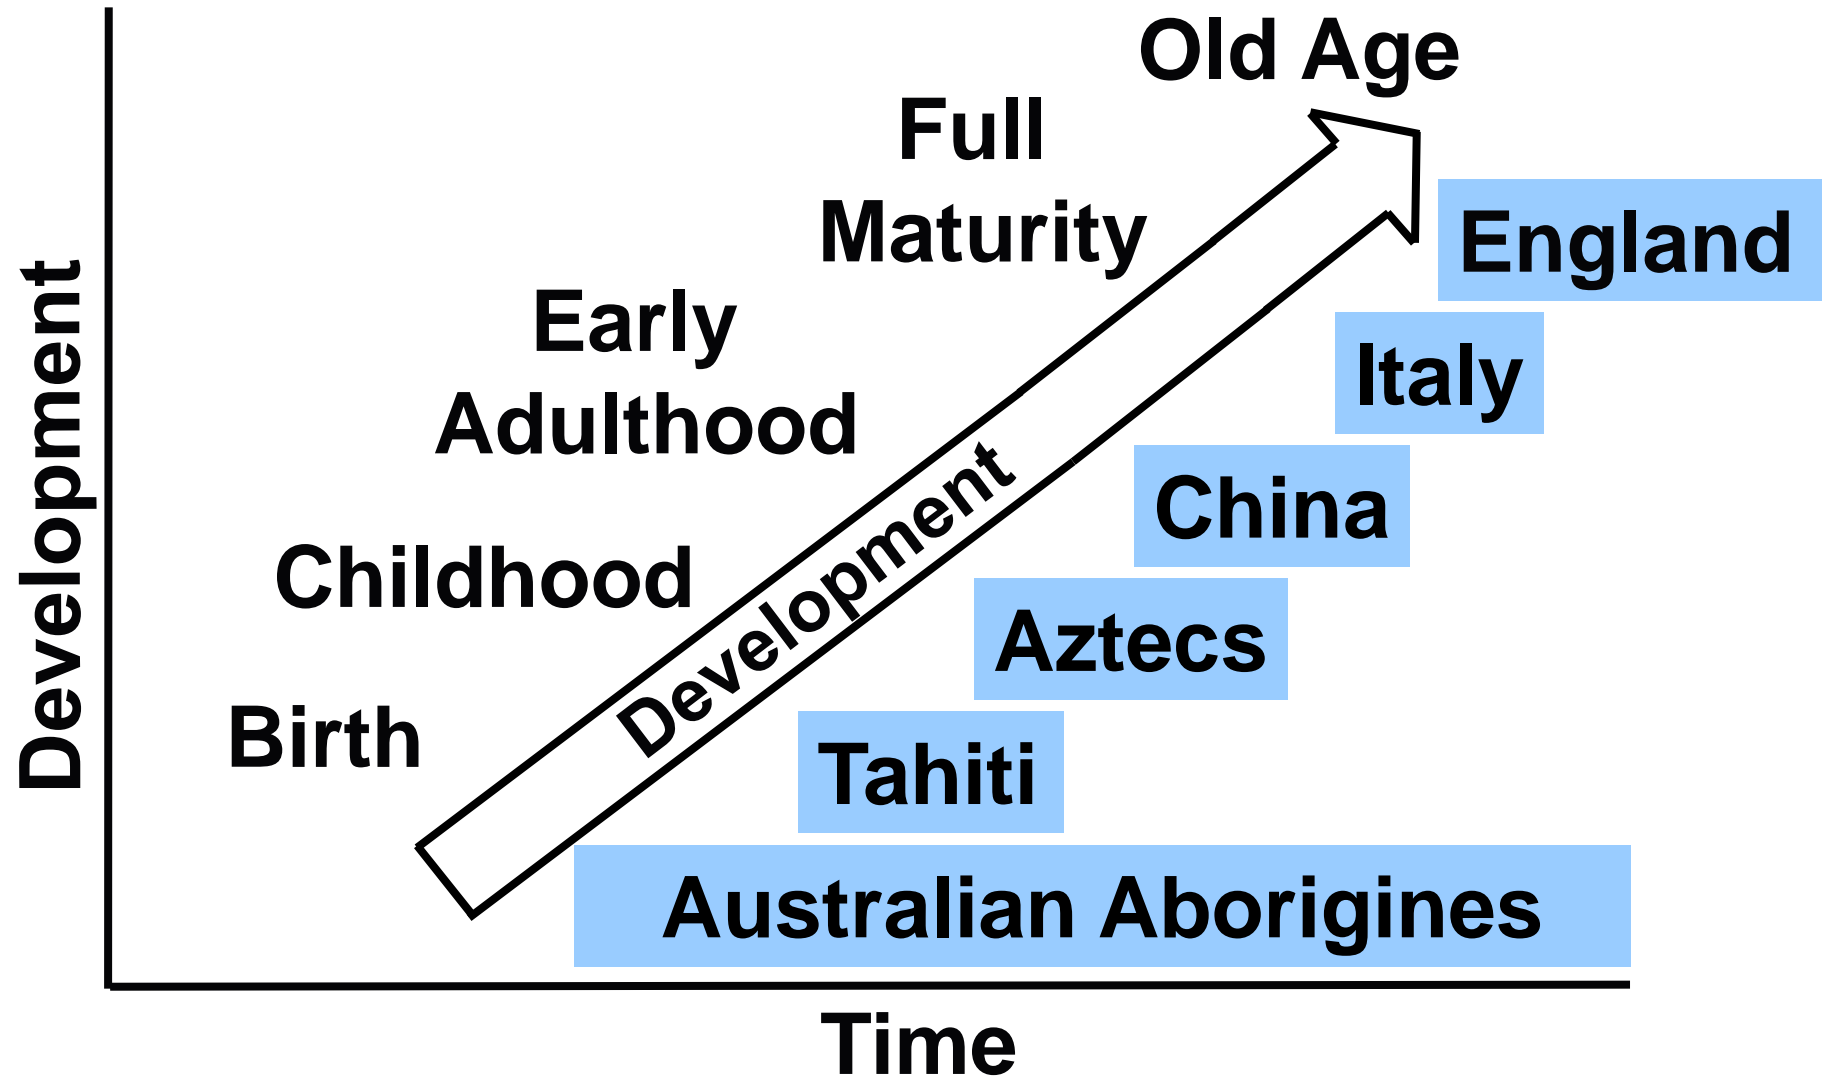

# Societal Development

# Societal Development

# Societal Development

# Reading History Sideways on a Trip Around the World

# **But Findings Were Wrong**

- 1. Most of the so-called great family transition in northwest Europe had never happened**
- 2. Historical evidence suggested that much of the so-called great family transition was simply a myth**

# Part Two

**2:**

**The ideas of developmental idealism, their spread around the world, and their influence on worldwide family change**

**Social  
Science  
Research**

**Developmental  
Paradigm**

**Reading  
History  
Sideways**

**Developmental  
Idealism**

**Social  
Science  
Research**

**Developmental  
Paradigm**

**Reading  
History  
Sideways**

**Developmental  
Idealism**

**Family  
Change**

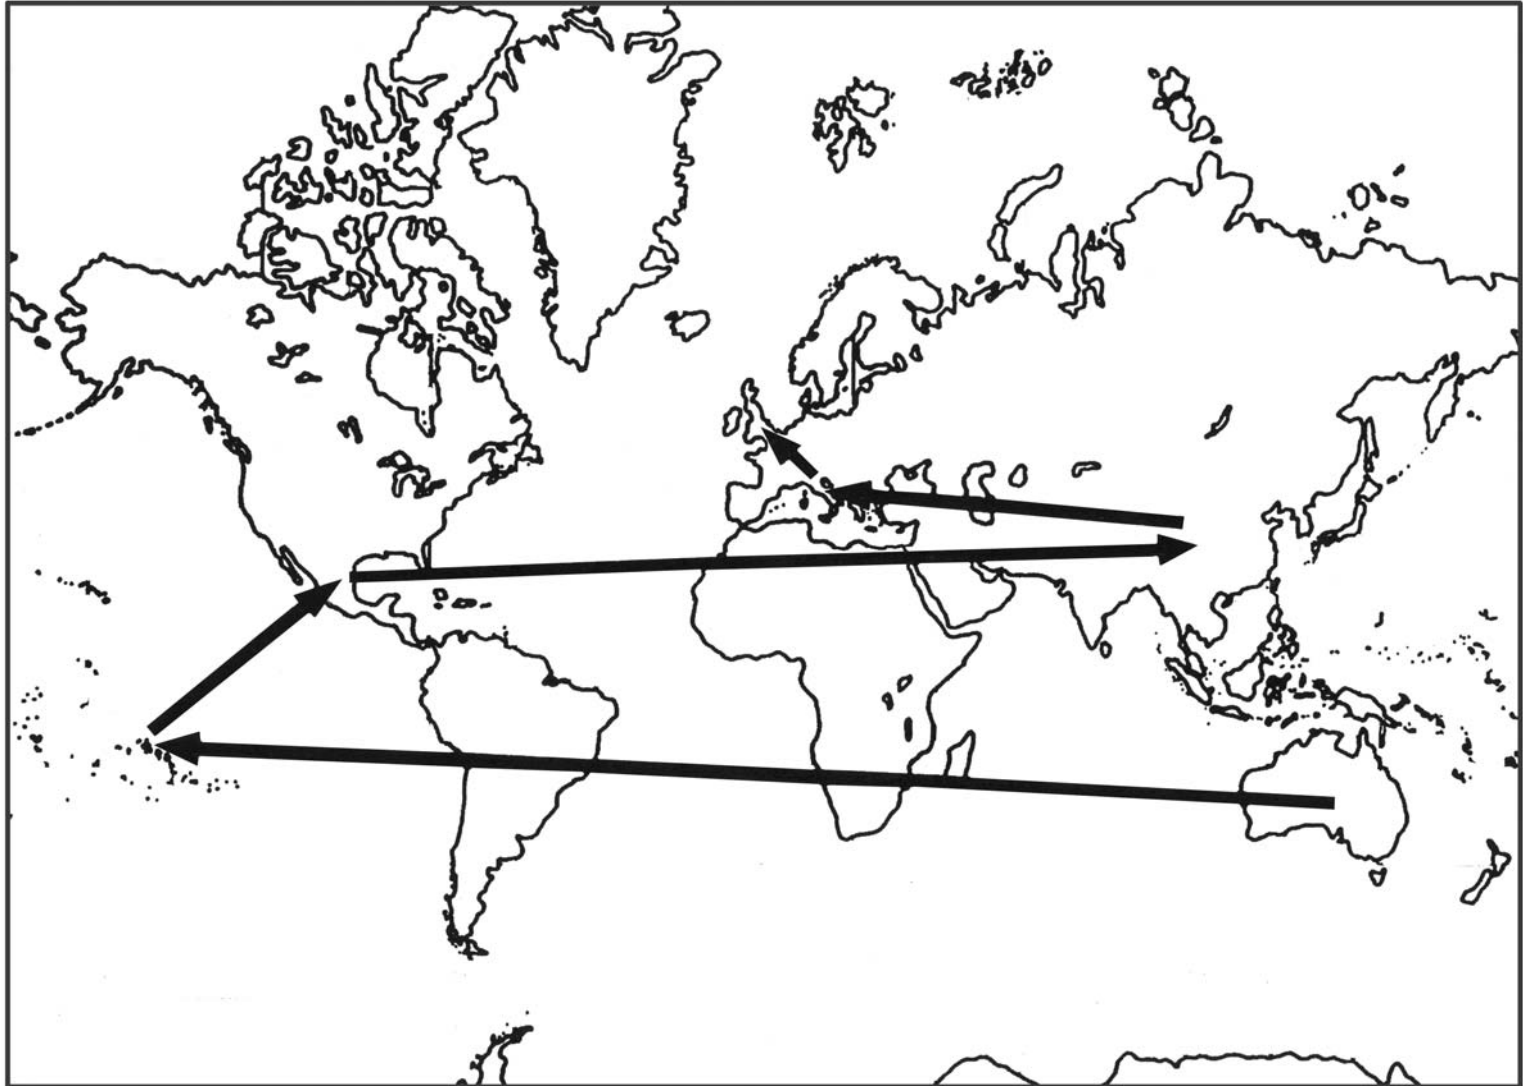

# Elements of Developmental Idealism

- 1. Modern society is good.**
- 2. Modern family is good.**
- 3. Modern family is a cause and effect of a modern society.**
- 4. Individuals have the right to be free and equal and have their relationships based on consent.**

# Reading History Sideways on a Trip Around the World

# Reading FUTURE Sideways on a Trip Around the World

# **Spread of Developmental Idealism**

- Writings of scholars**
- Mass education**
- Mass media**
- Christianity**
- Colonization**
- Democratic movements**
- United Nations**
- Non-government organizations**
- U.S. foreign policy**
- Civil rights**
- Women's rights**
- Family planning**

# **Northwest European Family Changes Since the 1700s**

- 1. Increased non-marital sex, cohabitation, and childbearing**
- 2. Increased divorce**
- 3. Increased equality in gender roles**
- 4. More independent living**
- 5. Increased individualism**
- 6. More autonomy of children**

# **Family Changes in the Non-West**

- 1. From extended to nuclear households**
- 2. From arranged marriage to consent and courtship**
- 3. From young age at marriage to an older age at marriage**
- 4. From extensive gender hierarchy to more gender egalitarianism**
- 5. From uncontrolled and high fertility to controlled and low fertility**

# Part Three

**3:**

**New evidence about people today believing these ideas and acting on them**

# Goals of New Research Program

# **Goals of New Research Program**

- 1. Create tools to measure beliefs among ordinary people**

# **Goals of New Research Program**

- 1. Create tools to measure beliefs among ordinary people**
- 2. Evaluate the extent that people believe these ideas**

# **Goals of New Research Program**

- 1. Create tools to measure beliefs among ordinary people**
- 2. Evaluate the extent that people believe these ideas**
- 3. Examine individual and social forces influencing these beliefs**

# **Goals of New Research Program**

- 1. Create tools to measure beliefs among ordinary people**
- 2. Evaluate the extent that people believe these ideas**
- 3. Examine individual and social forces influencing these beliefs**
- 4. Examine the consequences of these beliefs for family and demographic life**

# American Perceptions of Where Family Attributes Are More Common
